Concealed Ceiling Control Box (CCB)

DESCRIPTION

The External Gear Driven Cable Operated Dampers work great with the use of a Concealed Ceiling Control Box (CCB). The external control cable of the GCOD can be routed to any convenient location and secured to this control box. The CCB features a strong steel housing so it can easily be secured inside of concrete or wood and it can lay flush to the mounting surface. When needed, the concealing cover plate can be removed to provide access for a 1/4" nutdriver to adjust the GCOD from the Gear Actuator.

For use with External Gear Driven Cable Operated Dampers

**Ordering Information**

Item #	Code	Description
35017	CCB	GCOD Concealed Ceiling Control Box
