SPECLINE®

SRH/SR INDICATOR KNOB STYLE REGULATOR SET

SPECLINE® DAMPER REGULATORS MINIMUM LEAKAGE DAMPER REGULATORS

Specline Regulators are designed for minimum leakage applications. Each regulator is comprised of a frame, an indicator handle, a serrated cast alloy core and a cast alloy nut. Serrations on the cast alloy core mesh with serrations in the frame to firmly lock the regulator in position. A spring washer situated between the core and the cast frame allows for smooth non-binding adjustment. A wedge pin is used to eliminate rattle and take up slack between the regulator and the damper shaft.

•All SR and SRH type regulators include a cast alloy frame and a neoprene frame gasket.

INDICATOR KNOB STYLE REGULATOR SET WITH HEX NUT AND ACORN NUT
