

SLIDE RAPIT[®] EXTENSION

The Slide Rapit Extension provides a fast method for extending the length of a rapit spring end Bearing 2". There is no need for tools; just twist the extension fork over the threaded bearing and slip the sleeve over the joint. Slide Rapit Extensions can also be stacked to accommodate liner thicker than 2". Other extensions require the use of multiple parts such as set screws and conduit. By eliminating the cumbersome parts, the 'all in one' function of the Slide Rapit Extension reduces labor time and makes installation virtually effortless.

FEATURES:

- Easy slide on application
- Reduced installation time
- Extends end bearing 2"
- Stackable to accommodate liner over 2"

**Stacked Slide Rapit
Extensions**

Item#	Code	Description	Quantity
7308	SRE14-14	1/4" Slide Rapit Extension	100 Per Ctn.
